Transylvania and Seklerland

Transylvania and more specifically in Seklerland of the Hungarian minority is a unique place to visit with life still very close to nature. It is a place where it is not impossible to encounter a real brown bear and see an eagle above. Planning your holiday here is a unique chance still to see a world that is rapidly disappearing. In the same line you can expect very reasonable prices.

Holidays can be of very different character like Thermal bathing, Warm water salt lakes like the dead sea. Active like biking, horse riding and hiking. Or cultural and architectural with medieval towns, fortified churches. Motor sports like off road cars, motorbikes and quads are possible. You can also choose between simple village life or luxury 5 star hotels. See links at the end.
